## Japan - Missionary Success.

By REV. D. S. SPENCER, Tokyo, Japan.

Do foreign missions pay? This is the question asked again and again by those who pretend, in spite of the vast volume of evidence to be gathered on every hand, to doubt the wisdom of the churches' effort to convert the heathen world. Japan as a mission field offers evidence of the highest value of the power of the gospel of Jesus Christ to enlighten, purify, civilize, and Christianize a people who until recently were buried in pagan superstition, doubt and decay.

A patient comparison is necessary to understand Japan's past and present. In 1542 that intrepid Portuguese navigator, Mendez Pinto, touched the shores of Japan and returning took with him to India Anjiro, a Japanese subject. Seven years later, in 1549, Francis Xavier, a heroic Roman Catholic missionary, met with Anjiro, became interested in the salvation of the Japanese, brought him to Japan with other followers and began the teaching of the Christian faith to the people. By 1598 more than a million of converts had been secured, among whom were great feudal lords, men of powerful influence. The attempt to control political affairs, a serious mistake on the part of the Christian evangelist, led to a persecution of unusual severity, extending over many years, and costing the lives of more than two thousand faithful natives and two hundred European missionaries. We need not to study the

government to the foreigner and his hated *yasou-kyo* that up to 1873 but eleven Japanese had received baptism into the Protestant faith.

These were times of suspicion and dark deeds. Notice boards prohibiting faith in Christianity and offering rewards for exposing native believers were posted by the government in public places. For the missionary to leave his home at night was positively unsafe. While policemen guarded his person and property, because of the government's treaty obligations, her secret detectives dogged his footsteps. If the common people were inclined to receive the foreigner, his religion, his schools, the attitude of their leaders forbade it. It needed a dozen years to allay suspicion, to show the difference between Protestantism and Romanism, and to prepare the way for any direct work.

These are briefly the conditions our heroic pioneer missionaries met. Without a dwelling house, a church, or a native convert; with no knowledge of the language, no Christian literature, no help of any kind; but with God above, the love of Christ in their hearts, a praying Church behind them, and a handful of sympathetic missionaries like themselves about them, bared-ed they began to lay the foundations of the Church in that land.

### SUCCESES OF FORTY YEARS.

What are the successes of forty years of toil? We now have 400 native ordained ministers, trained in our Christian Schools, loyal to our cause, earnest, intelligent, self-sacrificing, able in most cases to double or quadruple their income, by leaving the services of the Church to accept secular work or government positions. There are 500 unordained ministers and helpers, and 325 native bible-women who labor for the saving of the womanhood of Japan. Four-hundred church buildings invite the people to worship God. The gospel is regularly preached in 1150 stations and there are about 475 organized churches, perhaps 100 of which are self-supporting. These churches report 52,000 members, and 45,000 Sunday School children meet in more than 900 Sunday Schools where they are taught systematically in the word of God. As to church relations of these Christians the Presbyterian, the Congregational, the Episcopal, and the Methodist families have each approximately 11,000 members, while the Baptist approximate 2,500, the balance being divided among the Lutheran, the Christian, Scandinavian, Universalist and other smaller bodies. The Boarding Schools number 57 in which there are 55,000 young men and women receiving Christian education, and in about 80 day schools 7,000 little children are being instructed. One Christian publishing house last year sent out

700,000 volumes of books and tracts, some 21,000,000 pages of Christian literature.

Beside the above the Roman Catholic Church claims over 55,000, and the Greek Church over 27,000 members among the Japanese.

### THE BROADER INFLUENCE OF CHRISTIANITY.

This is a very brief statistical putting of our success as Churches, but it by no means tells all the truth. The broader influences of Christian civilization upon the Japanese nation, must never be forgotten. Instead of the notice boards which in the beginning forbade the Japanese to believe in Christianity, the 25th article of the national constitution now guarantees to every Japanese subject the enjoyment of freedom of religious belief. Then the Christian religion was a hated and condemned foreign creed, an alien, and illegal; now Christianity has the same legal status as Buddhism, and is protected by the highest law of the empire.

For long years the question of the Church's property in Japan was one of serious concern, as there were no provisions by which a satisfactory title to such property could be had in the name of the Church, or of a foreign person, company, or corporation; now the Church property may be held under legal provisions as safe as the empire itself.

Our mission schools have long labored under great embarrassment, partly because they were Christian, partly because they were private schools rather than a part of the government school system; but recently the chief hindrances have been removed and our schools can now provide for all who seek admission.

### CONFIDENCE RESTORED.

Suspicion has given place to confidence, and it has come to pass that the men most largely trusted are the Christian men. The President in the lower house in the Diet, three chosen, is a Christian man, and a dozen or fifteen of its most influential members are well-known followers of Christ. This is about fifty times the due representation of the Christians proportionate to numbers. But we now have Christian ministers in the Cabinet, Christian admirals in the navy, Christian generals in the army, Christian justices upon the Supreme bench, Christian men heading important commercial enterprises, and we ought to thank God that the profession of Christianity is no longer a bar to a man's advancement of the highest positions in the empire.

phrases about kindness and charity

The influence of Christian senti-  
ment in society has made a differ-  
ence in the dealings of man with  
man. Not a judge upon the bench  
but has felt his moral backbone  
stiffen by the presence of Christian  
sentiment among the people and  
even in the press.

Japan has recently set the world  
an example by imprisoning more  
than one hundred of her leading  
citizens, some of them men occu-  
pying high positions in her educa-  
tional system, because they were  
found guilty of accepting petty  
bribes from the publishers of text-  
books as payment for their favor-  
able opinions on these books.

Woman, too, has felt mighty  
the touch of Christian uplift. Con-  
fucius had no place for her. From  
many Buddhist temples and sacred  
mountains she is excluded. She  
could claim no legal standing, and  
was a mere chattel to be disposed of  
as of caprice might dictate. But  
Christianity has made concubinage  
a disgrace; the civil code, based  
upon the Code of Napoleon, or  
Christian law, gives to woman her  
legal status, guards her rights of  
person and property, and makes  
possible her independent existence.

The hardest blow yet struck  
against the damnable system of  
licensed prostitution, the curse of  
Japan, was struck by a Christian  
missionary, a Methodist, and if the  
Christians be supported in their ef-  
fort the day is not distant when  
they will close every brothel in  
the land.

### DEVELOPING CHRISTIAN SENTIMENT

But the case does not rest here.

## IT MUST BE A GO.

If the people of Montgomery county would secure a competitive railroad and at the same time give us access to business along the line and tributary to the Lexington & Eastern and its extension they must pull together, and at once, for the line is short and the needs are heavy. Every man, be he property owner or laborer, has a material interest. The land owner that has a farm in Montgomery county will be benefited by the increased value of his lands at any time he might want to put it on the market. To be specific, the man with \$10,000 worth of land would be worth at least \$11,000 from this source. Then all men would be benefited by the reason of a decrease in the tax rate, for every mile of road in the county would add thousands of dollars to the assessed list of property, and would for the reason of making it a competitive point so reduce freights that would within a short time pay back the amount we may subscribe to secure the construction of this road. The people of Mt. Sterling would be greatly benefited by enhanced values on real estate and by the business that would be added. No one can deny these statements, and we could add many more advantages. To the former such a road would be worth its thousands. For illustration: Along the line of the Southern Railway from Lexington to Louisville there are many milk stations and we are informed that there are quite a number of farmers that furnish the milk dealers in Louisville as much as \$500 worth per month. One man said: "During the period of years I have been in the milk business, I have shipped and realized from time to time in the city of Louisville \$16,000. Such a business could be conducted from here every day with Lexington, Louisville or Cincinnati as we might choose, and the milk advertising here would get to market just as soon as the Southern takes it into Louisville. For such results the farmer can not afford to do without this road longer. Every item raised on the farm would find an active market. The blackberry bushes that grow wild on the neglected parts of the farm would be making satisfactory returns, and labor would find constant employment. The laborer and professional man would find remunerative work constantly coming his way. Business houses and residences would be in demand.

Now it is up to us whether or not we would have results as above mentioned. It is a serious matter to Montgomery county. It is necessary that every individual do his or her best. Make up your mind to do the best you can. If all will do accordingly to what they have and how they would be benefited, the amount of money needed would be realized. Then there is the right of way, the farmers through whom the road may pass can not be losers if every man along the line gives it free of compensation. You may hear some land owner say he would be ruined by the road

going through and cutting the farm in half, but that farmer will be ruined if the road is not constructed at all. For what he now has to go to waste annually and what he could produce and is not now, will go on this way for ever unless the road is built. This is a progressive age, we can't afford to stand still. When informed we believe every man with both money, contribution and right of way will do his part. The serious matter is to us. Everybody to the wheel. Pull! Push!

## THE NEGRO IN OHIO.

The deplorable riot across the river in the state of Ohio is not a source of pleasure to any good law respecting citizen. That such an occurrence should become a part of Ohio's record in a locality where negroes are numerous is no great surprise. In fact, knowing the feeling that exists between the races as we do, the wonder is the clash had not come sooner.

The negro had of the great sympathy of the Ohio citizen for him in his relations with the Southern white man and because of that knowledge he had graded the Ohioan on equality with himself, socially and otherwise. This sentiment had gone forth but it was not real, and the negro is to the respectable Ohio citizen exactly as he is to the Southern man, and whenever he commits an outrage of any kind against a Northern white man it is avenged right speedily as in the South. The negro can not continue in the same locality with the white man, be it in the North or South, on terms of equality. To eat at the same table, or even in the same hotel is a lowering of the dignity of the white man and even the negro so regards it, and the negro is therefore positively denied recognition socially anywhere except by his own race.

President Roosevelt made a test of the social feature, selecting as his subject, the most distinguished of his race, Booker Washington, and had the negro to dine with him, and this bid for Republican representation will cost the President the goal of his ambition. The white people will not have it. This feeling between the races which exists in the South is permeating the North and East wherever the negro goes and will be seen very frequently in a riotous spirit as at Springfield, Ohio. The question is this: What can the United States do with the negro?

### A Correction.

Lee Hatton and H. C. Myers make the following statement in regard to the scrap Sunday morning: They had been drinking, and went down on the railroad together, Myers struck Hatton and kicked him, and Hatton then struck Myers and knocked him down. Myers fell on the railroad track and cut the back of his head. Hatton cut Myers' nose with his fist. When we fought we were it the best of humor and are good friends now. Doctor had to be called in, and all parties well and in good shape so soon as Myers' bandages are removed. LEE HATTON, H. C. MYERS.

## FRANKFORT ITEMS.

The House bill amending the school law so as to create a State commission to select school text books, instead of by county commissioners, was reported unfavorably by a four to three vote from the committee.

The House bill, to prohibit the education of white and colored children, was reported from the committee, with the expression of opinion that it should pass. The bill is aimed at Berea College.

The bill appropriating \$40,000 for cell rooms and other additions for the Eddyville penitentiary and \$26,000 for additions at the Frankfort penitentiary passed 58 to 19.

The bill to prohibit the adulteration of grass and field seed passed, with an amendment.

The State Senate by a vote of 19 to 9 passed the bill appropriating \$20,000 for a statue of the late Gov. Goebel to be placed in the new State House. The House by a vote of 69 to 19 passed a bill repealing the law appropriating \$15,000 annually for a State fair. The Bourne Bill proposing to regulate the tobacco warehouse business of the State was defeated in the House.

The bills assigning the county of Beckham to its proper judicial districts and increasing the pay of the Appellate Court stenographers to \$100 per month were signed by Governor Beckham Tuesday, May 5. The bills relating to the sale of stocks of goods in bulk and increasing the annual allowance for clerk hire in the State Insurance Department were allowed to become laws without the Governor's approval.

Gov. Beckham has signed the bill to extend the school term from five to six months; to apportion the Sheriff's fee to allow 26 per cent thereof for the payment of the school term; reappropriating the sum of \$75,000 for additions and improvements at the Western Asylum for the Insane, and the bill repealing certain portions of the exemption laws as not to allow the exemption of \$50, under the act of 1902, for provisions for the family.

### Made The Most of His Job.

A Bourbon county Magistrate drew \$558.17 for services last year. The law allows \$8 per day and it thus appears he did 286 days work during the year. As there are only 313 days in the year exclusive of Sundays, it would seem that he did not devote much time to his private affairs.—Winchester Democrat.

School Inspector (examining scholars)—Where is the North Pole?

### Cure For Lock-jaw.

An exchange gives the following: Take common sheep's wool in the grease, place over live coals and smoke the same. It will cure any case of lock-jaw. My son stuck a fork through his foot and suffered intense pain. I used this remedy. The pain ceased at once and he was well. I have tried it on man and beast.

### A Good Investment.

About a year ago Mr. J. B. Prather purchased forty acres just beyond the old toll gate on the Paris Pike out of town. He paid \$150 per acre, total \$6,000. Twenty-five acres of this he put in tobacco. The yield from this portion was 45,000 lbs., and he received for ten cents straight from Mr. E. W. Hughes. This made a total of \$4,500. He also sold off of the land \$500 worth of timber. This brought the total up to a yield of \$5,000 gross on an investment of \$6,000.—Paris Cor. Lexington Herald.

**Marking of Sin.**

Christ not only instantly calmed the wild winds sweeping over Galilee, but the surging of the waves as well—the effect of the winds. In grace 'tis somewhat different. The burnt hand is scarred; the disease is stayed, but the face is pitted; forgiveness is applied, but the knowledge of sin is a cross; the soul is redeemed, but guilt has given the spirit a broken wing that is never so strong as before. Certainly we should not sin that grace may abound, for even if the wind does cease, in our bodies, minds and souls we shall bear marks of the storm.—Geo. L. Snively.

### LIKE FINDING MONEY.

W. S. Lloyd Offer Bopular Medicine at Half-Price.

W. S. Lloyd, the popular druggist, is making an offer that is just like finding money, for he is selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half-price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is quite unusual to be able to buy fifty-cent pieces for a quarter, but that is what this offer really means, for it is only recently, through the solicitation of Dr. W. S. Lloyd, that this medicine could be bought for less than fifty cents, he urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment, for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these troubles. But if by any chance it should not, W. S. Lloyd will return your money.

### Measure is to Prevent the Deterioration of Kentucky's Famous Blue-Grass.

Representative South Trimble's bill preventing the adulteration of Kentucky blue-grass seed was on March 9th favorably reported by the House Agricultural Committee. The bill—which is one of the most important from a local standpoint now pending in Congress—was introduced by Mr. Trimble early in the session. He has constantly urged upon the members of the committee the vital necessity to farmers of the passage of some such a measure, and his good work in behalf of the bill was on the 9th rewarded with a favorable report. Mr. Trimble made quite a campaign out of Congress for his bill. He wrote letters to the heads of the agricultural schools throughout the country asking for their views of his measure, and in every instance received an enthusiastic endorsement of the bill. One of these letters played an important part in the proceedings before the committee.

The chairman of the committee has designated Mr. Trimble to draw up the report on the bill, which will be submitted to the House within a few days.

### The Doctor's Bill.

There are 200,000 doctors in the United States, collecting in fees each year more than \$150,000,000. Then there are the prescription bills and the huge expenditures for patent medicines. Clearly, sickness is one of the main events in the routine of the average American's life.

Among no other people is intelligence so widely diffused as among us. Among no other people are the means to comfortable and attractive life so widespread. And those medical facts show that we are in no haste, so far as desire goes, to adventure the life beyond. Yet those colossal expenditures for drugs, those doctors so numerous that there is one for every 400 people, are proofs of our national ignorance of the laws of health, our national indifference to the comparatively easy precautions against sickness.

There are cases of unavoidable illness. But a wise man is slow to assume that his is one of them.—Saturday Evening Post.

SHE MUST HAVE BEEN A KENTUCKIAN.

"Where are you going, my pretty maid?"

"To the World's Fair at St. Louis, sir," she said.

"Over what line will you travel, my dear?" said he.

"Over the Henderson Route," of course," said she.

"Why over that road do you go?" he said;

"For Free Travel Chair Cars, sir," she said.

"And when does the Palace of Travel?" enquired he.

"From Kentucky—Louisville," she said.

"Louisville," said he.

"You seem to be pleased with that line," he said;

"I'm traveling another route—Tis as good,

said he.

"You're going to see me, kind sir," she said.

"I can only see one—The Henderson," she said.

"Won't you travel to St. Louis, my wife, with me?"

"I do not have a husband you need," said he;

"But the Henderson Route line," for me," he said.

"Then, will you not come my way?" he said;

"Is the choice of routes worth more than my love?" said he;

"No! but the choice of routes is dear, sir,

# A Matter of Health

There is a quality in Royal Baking Powder which makes the food more digestible and wholesome. This peculiarity of Royal has been noted by physicians, and they accordingly endorse and recommend it.

ROYAL BAKING POWDER CO., NEW YORK.

JAPAN — MISSIONARY SUCCESS.

(Continued from first page.)

ed from Japan a burden which was fast coming to be unbearable. This is the political side of the matter. From the Church's standpoint it bursts from the missionary his traveling passport fitters and set him free to roam at will up and down the empire, preaching Jesus and the resurrection; it changed the feelings of the government and people toward the foreigner and his creed; it stirred the native evangelist with a desire to see the people converted; it gave the patriot an additional reason for wishing to make his country worthy to march with the Christian nations of the Occident, and thus threw wide open the doors for Christian propaganda. Then came the Anglo-Japanese Alliance, an event which has imposed upon Japan still greater obligations and inducements to measure up to her best in every way.

FAILURE OF THE MORAL SYSTEM.

And this has apparently led to another line of thought. From the early years of the Meiji era Japan had depended upon general education to solve her difficulties and lift her into a stable national life. In pursuance of this policy she has developed her school system to a state of great efficiency. With vehement determination religion has been divorced from her schools. But it became clear "that education pure and simple had not bettered the morals of Japan" and this "led the emperor in 1890 to issue his Imperial Rescript on Morals in Education. But as the rescript supplies no power to live the life it recommends, it becomes only a moralization." The young men of the government schools have become skeptical to an alarming extent. Disgusted with the general and moral degradation of the priesthood, cut loose from the religion of their fathers

and thrust into social, political, industrial, and commercial conditions, all new to them, these young men are religiously and morally adrift. The waves of skepticism, rationalism, and agnosticism have been roiling over Japan, and by many leading men this failure of their moral system is keenly felt and deeply lamented. Of the students in Japanese colleges but one in seventy is a Christian communicant; of the colleges of the United States and Canada, one out of every two is a communicant.

NOTABLE WITNESSES

Hence Baron Majima, an ex-Cabinet officer, has recently said: "I firmly believe we must have religion as the basis of our national and personal welfare. No matter how large an army or navy we may have, unless we have righteousness at the foundation of our national existence we shall fall short of the highest success. I do not hesitate to say that we must rely upon religion to our highest welfare. And when I look about me to see what religion we may best rely upon, I am convinced that the religion of Christ is the most full of strength and promise for the nation."

Count Okuma, ex Premier, laments the loss of moral fiber and says: "The efforts which the Christians are making to supply to the country a high standard of conduct are welcomed by all right-thinking people. As you read your Bible you may think it is antiquated, out of date. The words it contains may so appear, but the noble life which it holds up to admiration is something that will never be out of date, however much the world may progress. Live and preach this life and you will supply to the nation just what it needs at the present juncture."

THE CHURCH'S OPPORTUNITY.

This is the Church's opportunity in Japan. Now, while her leading men stand favorable to the inculcation of Christian principles, while

the minds are open to receive the truth; now, when God has, through a victorious war, through improved international relations, and through the failure of their moral system, flung wide open doors, this is the Church's supreme opportunity.

We should seize this opportunity first through increased direct evangelistic work. This is the Church's first and greatest business, to preach the Gospel to the 47,000,000 of Japan, and to this supreme duty all other agencies should be subordinated. To preach that Gospel in the language of the people is the missionary's highest joy. But to do this we must have more men and money.

Our present force all over the field is working to the danger point. The first and greatest need is for young men, the best from the schools, who shall take the field, acquire the language, and be ready for leadership to take the places of the falling pioneers. Then we need money for native preachers, not a sudden large increase so as to demoralize self-support, but money especially for new work. Millions upon millions of the people have never heard of Christ. Their minds are open. They await something new. Of religion they have enough, but the Gospel famine is something awful to behold. O brothers, why may not Japan have the Gospel now? Is this excessive asking for a land where only one in 1,000 of the population is a Church member, where the heathen temples still outnumber the Protestant communicants? and where the people crowd about us at the rate of 300 per square mile, while the United States has but 26 and China 96 to the square mile.

CHRISTIAN SCHOOLS

We should seize this opportunity through Christian schools. These schools from the first have been both the entering wedge and a source of strength. The Japanese are a reading people. Eighty-one and one-half per cent of the population are actually in the schools. The daily papers from the morning press fall like snowflakes over the land. The selection of books found upon the shelves of book stores in Tokyo compares favorably with those of London, Paris, New York, Philadelphia, or even Boston.

The commercial value of the English language is known, and it is a required study in the schools of the country, where the children are learning to think in English. It is now proposed that the children in primary schools shall be taught to Romanize their own language in both Roman and Italic forms. Even the Jinrikisha coolies often spend their waiting moments in studying an English reader. But the government schools are non-religious, agnostic, and often anti-Christian.

REASON FOR CHRISTIAN SCHOOLS.

We must have the Christian schools for our Christian constituency, for the preparation of our ministry, and for the many who choose to commit their sons and daughters to Christian rather than to government schools of skepticism and loose morals. Yet not one of our schools but needs immediate financial help. For years the Church's gifts have been so meager that we could neither rear new buildings nor repair the old. The schools need better physical apparatus, better libraries, a better grade of teachers, in short such an equipment as shall enable them to compete with the government schools in order that we may hold the brightest minds and open the way for larger success through the influence of scholarly Christian men. To combat through Christian schools the agnostic tendencies of the government schools is now a matter of prime importance in the Christianization of Japan.

JAPAN AND THE ORIENT.

In saving Japan you save the Orient. Japan is already in practical control of Korea. She owns strategic railroads, telegraph lines,

banks, and large commercial interests. Japan is sending hundreds of her picked men into China. They are reorganizing her army, are advisers to her government, are putting her schools into shape, are heads of business enterprises, are drafting her new code of civil law, are managing her Imperial University. Little Japan leading old China? Why 2,000 Chinese students are in the schools of Tokyo, and among them are sons of Chinese nobles; and of these students more than 100 are Chinese girls. Over 100 Chinese non-commissioned military officers are in Japanese barracks getting their training for war. And if these Chinese can be Christianized, what does this mean to the Orient? Remember the trumpet call of Bishop Moore: "As Japan goes, so goes the Orient."

JAPAN AND RUSSIA

I would help Japan save China. I would help her build a wall so high and strong that the Russian bear could neither scale it nor crawl through it, for it is known unto you that wherever that bear places his paw there is an end to Protestant missions and ultimately to American commerce.

O, that the Church of God would grasp her opportunity in the Orient!

"What have I thought of his work so dear? What have I planned for the kingdom here? What have I learned of the power to save? What have I done that the world may see? What Jesus did when he died for me?"

PAPER WILL BE READ BY MISS BRECKINRIDGE BEFORE NATIONAL COUNCIL OF WOMEN OF GERMANY.

GLAD TO DO IT.  
THIS MT. STERLING WOMAN WILL SUPPLY THE DESIRED INFORMATION.

A Mt. Sterling lady who has derived great benefit from the use of Doan's Kidney Pills, offers to tell any townswoman about her experience. Read this convincing statement:

Mrs. Mary Kelley, wife of Peter Kelley, farmer, living just outside of the city limits on the Winchester pike, says: "Doan's Kidney Pills were so beneficial and positive in their results that I am compelled to place great faith in them. I was troubled to quite an extent and with a complication of kidney troubles. The symptoms were so marked as to leave no possibility of doubt in my mind as to what kind of medicine I required so on noticing some testimonials of the strongest kind, endorsing Doan's Kidney Pills, my husband procured a box for me at F. C. Duerer's drug store. On taking them I was convinced that the advertised statements concerning Doan's Kidney Pills were nothing short of the truth, for this good preparation absolutely performed what it promised. I can speak positively about the results obtained and will be only too pleased to give minute particulars to any lady who wishes them. My husband also used Doan's Kidney Pills and found the results entirely satisfactory."

For sale by all dealers. Price, 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## FACTS and OBSERVATIONS

## AT SOLDIER AND MOREHEAD.

The writer spent Monday night of last week at Soldier. Mrs. Cora Stewart, Superintendent of Schools of Rowan county, had been invited to visit the school recently begun there by Miss Jessie Spencer, of Lexington, as an annex of the Morehead Normal. R. B. Neal was master of ceremonies. He introduced Mrs. Stewart who read a fine paper on educational work, referring to noted men who had attained eminence, pointing out the good to be attained, and encouraging the people of Soldier and community to sustain the work undertaken by Miss Spencer. We were much pleased with what Mrs. Stewart said. Rev. Neal saw the writer enter and at the conclusion of the address introduced us as one who was interested in the schools conducted by the C. W. B. M. at Morehead and Hazel Green. We were pleased to speak a word of encouragement.

Miss Spencer told of having heard Rev. Neal in a prayer-meeting talk at Central Christian Church at Lexington, three weeks before, of her resolve to begin this work at Soldier, of her coming at once.

Thus far there are 39 enrolments. The school meets in the hall used by some of the lodges of the town.

It is yet too early to tell the exact procedure in the management and scope of the school. Miss Spencer is to be encouraged and complimented for the interest she has shown in education in that section. We shall expect to hear of very helpful work, and will call again. Although the weather was disagreeable, night dark and roads very muddy, the attendance was large.

C. & O. engineers were here locating a switch to connect with the fire clay plant on right of railroad, giving cash. This plant will be built by L. S. Vincent and those associated with him, an account of which will be given later. Mr. Vincent & Sons have recently begun operating a saw mill. There are now two fire-clay plants within a mile and one-half of town. Soldier is already an important shipping point.

We stopped between trains at Morehead. The wife of Dr. Woodward, the dentist, continues very weak, with no hope of recovery. The town is making a healthy growth, and the outlook along commercial lines is bright. As usual, we visited the Morehead Normal and took part in chapel exercises. During such there have recently been seven confessions of faith in Christ. So far as we know, this opportunity to become Christians is new in such schools. The attendance at the Normal is large, and would be much increased if facilities for caring for students were ample.

A great change has been wrought in Rowan county by this school. To stand before the young people there assembled in this and other schools is an inspiration. We did not have time to call at Bracken Academy but heard that it was prospering. We reached home on Tuesday afternoon.

Circuit court is now in session there, having convened on Monday, March 14.

## In Memory of J. B. Lane.

He died at his home in Olympia, Ky., March 8th, 1904. He was in his sixty-fifth year; was born in Montgomery county and leaves a wife and sister to mourn his loss. He spent the last six years of his life in the study of the Bible-taught, preached and wrote for religious papers. He expressed him self as being ready, and died in the faith. He sent his sister, Mrs. S. Lane, the following lines three weeks before his death:

## A DREAM OF HEAVEN.

Was it a dream in a vision bright  
That came to me in the dead of night?  
I went to heaven and saw things  
I never saw before, and saw no angels  
nor man, nor man by stain of sin,  
and the angel Peter watches and waits.  
While I stood at Heaven's gate,  
There the angel Peter watches and waits.

Above the gate in letters of gold,  
Were the words "Come in, come in,  
That in the world you stand in  
And life eternal you shall win."

Enter my Savior now to see—

He waits to welcome us as these,

But some, Alas! He turned away,

They have not fed the hungry,

Who, cold and hungry, passed your door;

Nor helped to bring the wanderer in;

Unkindness to the poor who for me

Entered the cross at Calvary?

I wished from this presence I might flee,

But the angel was beckoning me,

And I knelt at the gate of day

I heard a voice so sweetly say:

"He's done what he could, let him in—

Come in my faithful follower, come in."

## FRANKFORT HAPPENINGS.

Almost unanimously the House passed the R. W. Miller bill, which authorizes the condemnation of land for the construction of railroads not over ten miles in length from coal, oil or clay fields or timber lands to river outlets or railroad outlets.

Mr. Lochrey's bill, authorizing sixth class towns to permit persons to construct electric light or water plants in said towns, was passed.

House Bill reducing from six to five the number of trustees of the graded common schools in the district, was passed, and so was Mr. Miller's bill, No. 335, providing for paying County Clerks two cents a name for each name entered in the school census, and providing for back pay for this work during the past two years.

Mr. Price's bill No. 440 empowering county courts to authorize the drainage of wet lands at the county's expense, was passed.

Fully 400 of the bills introduced in the Kentucky House at this session are dead because of non-action. The House passed a bill increasing the pay of prison guards from \$65 to \$75 per month, and tabled a bill providing for the appointment of mine inspectors by County Judges in counties where mines are operated.

Mr. Middleton's bill No. 419, making adultery the only ground for divorce, was passed by a vote of 40 to 36.

Among the bills is one requiring retail merchants to give five days notice to creditors before sale of a stock of goods in bulk shall be legal. This is to prevent the defrauding of creditors by midnight sales and departures.

The General Assembly by last night will have appropriated nearly a million and a half dollars. The appropriations already made are \$1,000,000 for a State Capitol, \$75,000 for the St. Louis Fair, \$57,000 for the Confederate Home, \$75,000 for enlarging the Hopkinsville Asylum, \$22,000 for the Deaf and Dumb Institute at Danville, \$60,000 for the Frankfort and Eddyville penitentiaries, \$2,500 for a monument at Boonesboro, \$3,000 for the office for additional clerks in the Attorney General's office, \$1,500 annually for the State Treasurer's office, \$6,200 annually for the Attorney General's office, \$1,200 annually for the clerks of the Appellate Judges, \$200 annually for the State Librarian.

## THE GUARANTEED CATARRH CURE

W. S. Lloyd Will Return Money If  
Hyomei Fails—No Stomach  
Dosing.

Hyomei has made so many cures of the most chronic and deep-seated cases of catarrh that W. S. Lloyd considers it a specific in this disease.

He extends an invitation to all catarrh sufferers to call at his store and purchase a Hyomei outfit with the distinct understanding that it will be absolutely free unless it effects a cure.

The chief reason for the unusual success of Hyomei in the treatment of catarrhal troubles and other diseases of the air passages, is the fact that it cures by a new principle, impregnating the air you breathe with healing and germ-killing balsams. On this account it reaches the seat of the disease in a way impossible to pills, drugs or other stomach dosing.

Many of W. S. Lloyd's customers who have suffered with catarrh since childhood have been cured completely by this scientific remedy.

The complete Hyomei outfit costs \$1, and consists of an inhaler that can be carried in the purse or pocket, a medicine dropper and a bottle of Hyomei. Extra bottles can be obtained for 50c, making it a most economical remedy for the cure of catarrh.

Do not suffer longer with catarrhal disorders, but get a Hyomei outfit from W. S. Lloyd under his guarantee to return the money if it fails. You run no risk whatever. If it cures, the treatment is not expensive, while if it fails, W. S. Lloyd will refund your money and it costs you absolutely nothing.

## Bride and Groom Separated.

The meeting and embracing of a bride and groom on the depot platform in Lexington on Thursday, March 10, when the C. & O train arrived from the East attracted a great deal of attention. It was learned that they had been separated by accident at Winchester, and while the bride waited in uncertainty all afternoon, the groom was walking the streets of Winchester a very impatient man. He is J. D. Haicom, of Burgin, and she that morning, when they were married at Catlettsburg, was Miss Lena Evans, of Williamstown, W. Va. At Winchester he got off the train to get some fruit and was left, the train pulling out unexpectedly.

## Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculiar to their sex, while in reality the kidneys are damaged. Nervousness, headache, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by W. S. Lloyd.

## DEATHS.

GARNERS.—Mrs. Birdie Bent Grubbs died at the family residence on Elm street on Monday evening at 6:15 o'clock, March 14, 1904. She was the daughter of J. M. Bent and wife, and was born at Topeka, Kan., January 22, 1869, whence was in her 36 year. She has lived since infancy in this city, except 1 year at Winchester. At the age of 19 she married Chas. M. Grubbs, of Louisville. Their two children died in infancy. In early childhood she confessed faith in the Christ and united with the Christian Church. For years her health of affliction has rested heavily upon her frail body. For eight days she was unconscious and took no nourishment of any kind. Her last conversation was with her grandmother, Mrs. Mitchell, concerning a reunion with her mother and two dear children in the heavenly home. She is survived by her father, who lives at Aden, Ky., and a sister, Mrs. Marcie Hoffman, with whom she lived. Her mother died May 21, 1903. Funeral service will be conducted at the residence this (Wednesday) afternoon at 1 o'clock by Rev. H. D. Clark. The body will be taken to Lexington on 2:10 train for burial.

## SOCIAL EVENTS.

On Friday evening Miss Lillian Samuels in celebration of her birth day entertained several friends, married and single. The event was a pleasing one.

Miss Olivia Anderson entertained elegantly at her country home Monday evening at a birthday celebration. An elegant supper was served.

On Tuesday evening of last week Misses Mary Hunter and Susette Johnson entertained the nine members of the Chafing Dish Club and several young gentlemen.

On Friday afternoon Mrs. G. L. Kirkpatrick entertained the High Five Club at cards. There were more than thirty guests.

The B. Y. P. U. social at W. R. Newell's on Friday evening was most enjoyable. Delightful refreshments were served. This shows what young church workers can do when they set themselves to the accomplishment of any special work.

Miss Leah Anderson returned Saturday from a six weeks' visit to her sister, Mrs. G. W. H. Stanley, at Thomasville, Ga. The following clipping is from the Thomasville Times-Advertiser:

"It is one of the popular games of the day and one of the pleasantest events of the social season was the pit party given in honor of Miss Anderson, of Mt. Sterling, Ky. Miss Anderson is the guest of her sister, Mrs. G. W. H. Stanley, Prof. and Mrs. Stanley have a charming home and are most cordial hosts. About thirty of the young people of the city were their guests last night. All thoroughly enjoyed the game and meeting the honoree of the occasion.

The First Christian Church on Sunday, March 6, raised nearly \$670 for Foreign Mission purposes. It is hoped to increase this sum to \$750, which will enable the church to maintain an American missionary in India and also a native missionary in the same field.—Winchester Democrat.

Rev. Chas. Leonard, former pastor of Howards Mill Baptist Church, is preaching for the Meade Baptist Church, in Louisville. He opened open saloons and the locating of saloons near church. After this the saloon element of his congregation closed the doors of the building to prevent his preaching. So much for a majority of unconverted membership.

The revival services of the Baptist Church will begin on next Sunday and Pastor Rev. J. R. Hobbs will preach each evening until the arrival of the gifted Tennessee preacher, Rev. Lawrence, a week later. It is hoped this series of meetings will be the beginning of a real religious fervor in the city of Mt. Sterling; that every man who knows Christ in his forgiveness of his sins may rise up against the strongholds of sin, that vice may be made to flee from our midst, that all men from all positions may be made to know the wonderful love of God and to accept his free grace.

### Dairy Butter.

Dairy butter is now manufactured in Holland from Philippine cocoanuts, and shipped to all parts of the world. This statement is made in bulletin just published by the Philippine Bureau of Agriculture, which has been making a special study of the cocoanut industry in the islands. The cocoanut furnishes two distinct commercial products—the dried meat of the nut, or copra, which is worked up into Dutch "butter," soaps and other commodities, and the outer fibrous husk.

It has been only within the past few years that food products have been manufactured from copra, although soap has been made from it for decades. Several large factories in France are now engaged in masking "vegetaline," "cocoaline," and other products belonging to this infant industry. The Hollander have succeeded in preparing from these manufactures a respectable looking and tasting butter. At first it was necessary to disguise the product by subjecting it to trituration with milk or cream, but so perfect is the present method of emulsion that the plain and unadulterated fats can be prepared and sold as butter without detection.

### Good Thing

Is Far from Keeping Pace with Growth of Population.

A century ago the colleges penalized the use of tobacco in public and discouraged its use in private. Even half a century ago some ruled lingered on this subject, says the Philadelphia Press. They have all disappeared. In college tobacco is freely used, and even the fitting schools are less severe in their rules against use than they once were. The per capita consumption of tobacco in this country does not increase and the aggregate amount imported and used is very far from keeping pace with the growth of population. Vastly more is used in cigarettes and vastly less in chewing tobacco, but the pounds consumed do not much increase. Our crop has changed little in 20 years and exports have increased. Imports grow because more costly cigars are used but the total imported is in a small proportion to the aggregate consumption. But people are easier over the use of tobacco than they once were. More clogmen smoke. The open trolleycars permit it. The railroads provide more comfortable quarters for smokers. It is even whispered that the college girl sometimes smokes and that the traveled young woman uses an occasional cigarette. More smoking is seen on the streets than was once. Yet the number of smokers is probably less, and the number of young men who athletics and training keep from smoking is larger than ever.

It is probable that there will always be a limited market, but it must be handled as a specialized business because cheaper substitutes are staples. Therefore, in some respects the maple product is a luxury, and will probably always remain so. Small fancy cakes, attractively bottled syrup (reasonably thick) will always be appreciated and paid for by a class of consumers who recognize a pure flavor and a healthy product—Country Life in America.

### PROFIT IN MUSHROOMS.

A Good Cellar the Best Place for a Profitable Bed.

Mushroom growing is one of the latest fads that has struck Washington, says a Washington letter, and interesting stories are told of the financial results of this peculiar kind of farming. It appears that there is a large demand for mushrooms, which will increase as the people come back from the seashore and mountains and take up their burden of entertaining in their homes.

The fact is a coarse dinner is not usually complete without mushrooms in some form, and the marketmen are sometimes driven to their wits' ends to supply the demand. Numerous private growers of mushrooms have lately met with good success, if the stories told around Center market are to be believed.

The abandoned vats of a brewing establishment in the northwest section are reported to have been transformed into beds for mushroom growing with almost as good profits as were formerly realized from the beer. Several have made use of their backyards for the purpose with satisfactory results. The mushrooms are easily grown, the yield is prolific, and their sale is good.

According to the figures given by a dealer in the market, a 15-foot bed will grow about 90 pounds of marketable mushrooms. The cost of the bed is about \$8. The growers receive 75 cents a peck for the best, and 60 cents a peck for the second grade, the size and quality determining the price. He figured out that three women of his acquaintance were clearing each about \$35 a month out of mushrooms grown in the cellars of their homes.

The marketman said a good cellar was the best place to raise mushrooms. He said the things necessary to success were few. First the cellar in which they are to be grown must be kept at a temperature of about 65 degrees, and should be well ventilated, and arrangements should be made to have the soil moist.

Good manure, rich in phosphate, must be used to form the foundation of the bed, which will be built preferably upon a dirt floor. Two loads will be necessary for a bed 15 feet long. The mushroom spawn can be procured in the shape of bricks from the florists and nurserymen. The temperature of the bed must be tested, and no planting must be done until it is below 95 degrees. Then the bricks can be broken in half-inch pieces and distributed evenly over the bed.
